

Digital Storytelling @ the Oxford Museum of Natural History

What is the story of climate change?

What is the future you want?

Join a two-day workshop at the museum this December to:

- learn about climate change communication,
- develop storytelling, video production and editing skills,
- join with other young people sharing their visions for the future.

Time: 10am-4pm on Monday 21 December and Tuesday 22 December

Location: Oxford University Museum of Natural History, Parks Road, Oxford, OX1 3PW

What to bring: Packed lunch, water bottle, face mask, smartphone, laptop (smartphone will be used for photography and filming, and laptop for digital editing using web-based software)

Contact Sarah Lloyd at the Museum of Natural History to sign up or ask any questions: sarah.lloyd@oum.ox.ac.uk

We are looking for a small group of 16-18 year-olds to join a workshop on the 21st and 22nd of December. At this unique, interactive workshop at the Museum of Natural History, you will produce a video and contribute to climate change research at the University of Oxford. The short videos created at the workshop will be part of a museum exhibition and shared at the UN climate meeting in Glasgow in 2021.

This workshop is being led by [Bill Finnegan](#), a documentary filmmaker and doctoral student at the University of Oxford School of Geography and the Environment who is researching how secondary schools in England are responding to the climate crisis.

This event will follow all coronavirus guidelines for educational settings and museums, including maintaining social distancing, use of face coverings, and frequent hand washing.

If you are interested, but are busy during Christmas break, additional workshops are planned for the February half-term holiday.

Environmental Change Institute

In this two-day workshop, you will **travel to the future** & report back a message of hope.
